GAME RULES

TRILUX BLACKJACK

TriLux Bonus is an optional bonus wager that pays based on the poker value of three dealt cards, using the player's first two initial cards and the dealer's up card.

To begin each round a player must make their regular Blackjack wager in order to place a TriLux Bonus wager. Once the players have two cards, the dealer settles TriLux Bonus wagers. If players have a poker hand, the dealer pays according to the following pay table.

Player's Poker Hand	Payout Odds
Mini Royal (A,K,Q Suited)	100 to 1
Straight Flush	35 to 1
Three-of-a-Kind	33 to 1
Straight	10 to 1
Flush	5 to 1

The dealer then follows regular blackjack rules and procedures.
Surrender is not allowed.
Side wagers are prohibited.
